## Know Your Parts

### Mounting Brackets (White Only)

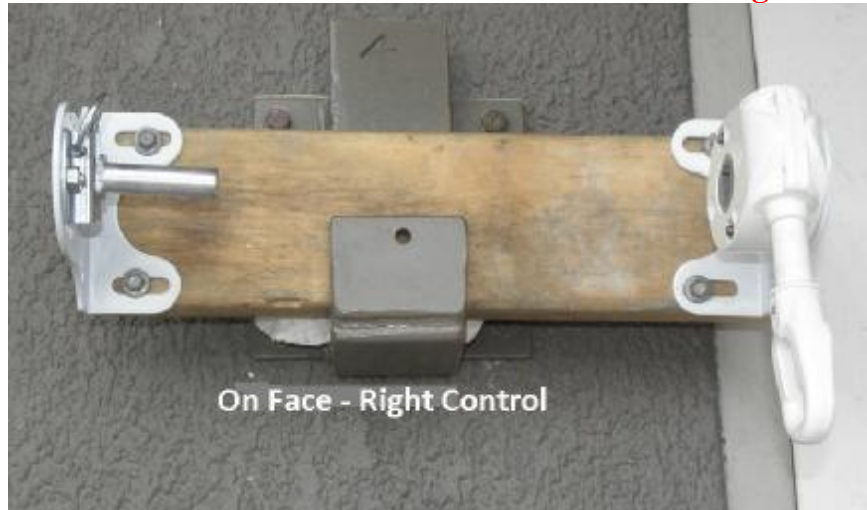

### Brackets ready for fitting

## Mounting Options

### Face Mount – On the Wall or Post – Bracket Configuration

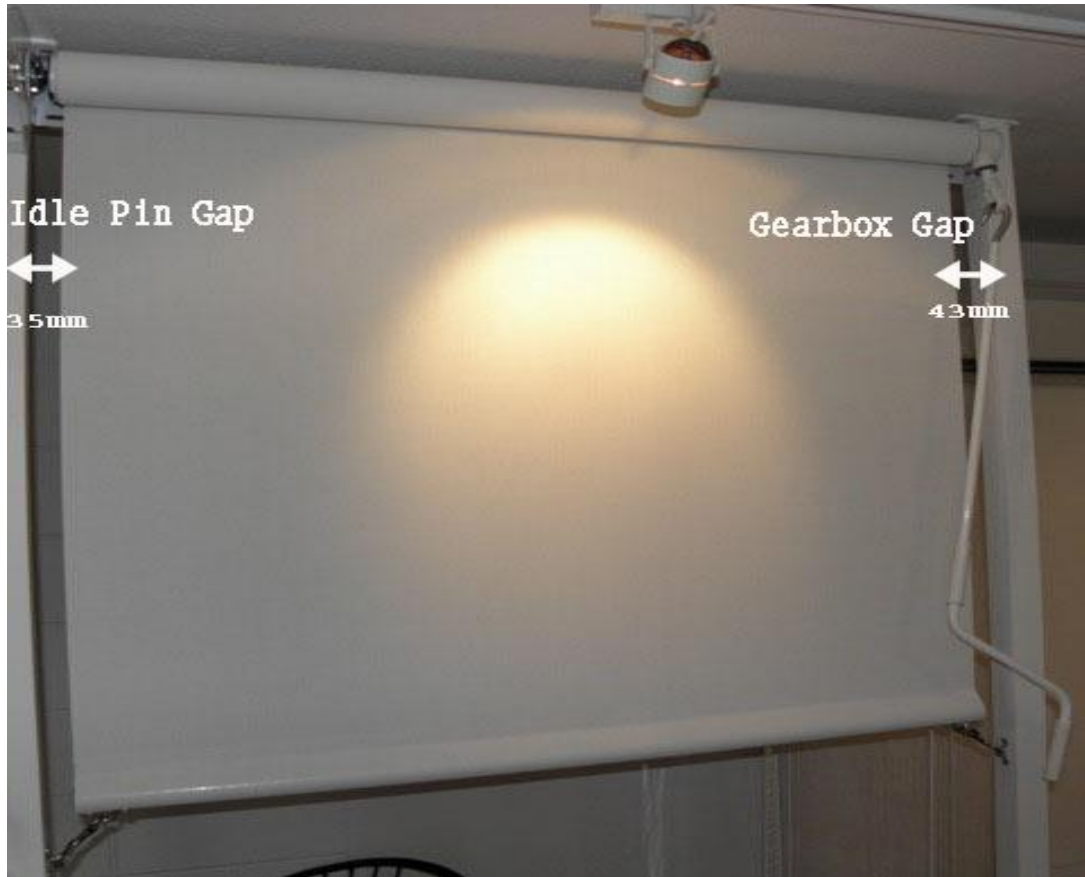

If you order for Face Mount or Side mount – right control the gear box and idle pin end will be as shown.

### Ceiling Mount – Under head – Right Control Configuration

## Image Blinds Direct – Straight Drop External Sun Blind Specification (cont.)

Face Mount – configuration – Installed inside two posts. Note that the skin of the blind is 35mm narrower on the idle pin side and 43mm narrower on the gearbox.

### Hold Downs

Supplied Loose: 2 x Stainless Steel Dog clips & 6 saddles.

- Use 2 saddles to attached the dog clip to the edge of the 38mm round steel bottom bar. The other 4 saddles are your two tie off points. Recommend one set (2) to be set level at half drop and the other at full drop.
