Image Blinds Direct – Timber Blinds Specification

Image Blinds manufacture a number of different timber venetians. We pride ourselves on having the best systems on the market so the blinds will always look good and operate well.

All Timber blinds are supplied with :

- Pelmet. Western Red Cedar & New York is a 90mm harbour bridge style while the Woodwinds is a 75mm Crown Decorative Pelmet.
- Child Safe break away tassels. These are designed to break apart if a child gets there head caught in the string. If they do break apart just push them back together lining up the two magnets.
- Front loading mounting brackets – 60mm (horizontal) x 50mm high
- Installation Instructions

Common things to note below :

WRC Pelmet – Harbour Bridge 90mm

Woodwind Pelmet – 76mm Crown

Break Away Tassels – Apart

Break Away Tassels - Together

Ordering Options:

Hold Downs (no extra cost)

- When ordering Image Blinds Direct timber venetians you will be given a choice – Hold Downs = Yes or No.
- Hold Downs are a silver metal L that hold each end of the bottom rail in place. They are designed to stop the blind from moving if your windows are open.
- It does effect the manufacturing.
 - Yes = Bottom bar is cut back -15mm (7.5mm each side)
 - No = Bottom bar is equal to all slats

Hold downs shown on both blinds
